

Helping drivers be better drivers.

ClearConnect + Safety as a Service

SOLUTIONS

ClearConnect Solutions Marketplace™ Partner

SAFETY TRAINING

Benefits of a Driver Safety Training Program

Implementing a driver safety program has tremendous cost and safety benefits to assist fleet and safety managers.

- Reduce insurance claims costs and premiums
- Decrease risk of collisions and traffic violations
- Lower vehicle maintenance costs
- Maintain FMCSA compliance

The Safety as a Service + ClearConnect Solutions Difference

With Safety as a Service safety training courses + ClearConnect Solutions' compliance and risk management services, you can take a proactive approach to safety.

Start today and prevent risky driving behavior, educate your workforce and maintain compliance for a safer fleet and safer community.

Safety as a Service and ClearConnect Solutions' Marketplace partnership combines driver safety training, ClearTrac compliance and ClearTelematics risk management services. Fleet and safety managers can seamlessly maintain driver safety and FMCSA compliance while preventing risk.

Safety training, compliance, risk management – we got you covered.

Safety as a Service – Driver Safety Training

Safety as a Service is an online education service offering over 120 safety training courses for commercial drivers. Courses cover driver orientation, hazmat safety and regulations, remediation, and recurring training.

The online program helps existing and new drivers stay FMCSA compliant while making the driver training process more efficient, convenient and cost-effective.

Available Courses

Courses are available via smartphone, tablet or desktop. The virtual platform makes it a breeze for drivers to take a course in between routes.
